SKILLS

Frontend: HTML, CSS, Tailwind, JavaScript, TypeScript, React.js, **Backend:** C#, .NET Core, REST APIs, Node.js, PHP, Python Next.js

Databases: SQL Server, PostgreSQL, MySQL, MongoDB, Firebase

Tools: Git, GitHub, Gitlab, Vercel, Postman, Swagger, Figma

PROFESSIONAL EXPERIENCE

Software Developer | Watsons Philippines (via OLVRO Co. Ltd)

Aug 2025 – Present

- Developed and maintained the HRO Dashboard supporting 13,000+ employee records using Next.js, TypeScript, Tailwind CSS, C# .NET, and SQL Server, delivering real-time HR analytics and reporting.
- Built 15+ secure RESTful APIs and engineered ETL pipelines integrating Hatch/Cornerstone, Oracle HCM, and Know App, processing 13K+ records with automated validation and CSV generation.
- Designed SQL Server stored procedures and scheduled jobs reducing manual data processing by ~50%, while implementing secure authentication and RBAC to strengthen data privacy controls.
- Created comprehensive technical documentation, supported SIT/UAT activities for Know App integrations, and collaborated with HR stakeholders and Business Analysts to resolve production issues and deliver enhancements

Full-Stack Developer Intern | Weberly

Feb 2025 – May 2025

- Built a full-stack web scraping platform that automated extraction of 10,000+ records, eliminating manual data collection and integrating seamlessly with REST APIs.
- Developed Python backend automation scripts using Requests, BeautifulSoup, and Pandas.
- Built a real-time dataset visualization dashboard using Next.js and TypeScript.
- Designed and deployed a responsive client website with SEO optimization.

Freelance Web Developer

Jan 2024 – Feb 2025

- Delivered 5+ full-stack web projects including client websites, web applications, and API integrations for diverse clients using React, Next.js, Node.js, and PHP/WordPress.
- Developed custom dashboards and landing pages with performance optimizations, improving client site load times and user engagement.
- Integrated third-party APIs and built RESTful backends to enable seamless data exchange and business automation.
- Designed responsive, mobile-first interfaces using modern frameworks, ensuring cross-browser compatibility and accessibility standards.

NOTABLE PROJECTS

DesignGenius

Sep 2024 – Dec 2024

AI-powered interior design platform with secure payment via Stripe.

- Developed and maintained core features of an AI SaaS platform for interior design recommendations.
- Achieved an average AI render processing time of 8–12 seconds per design.
- Implemented Stripe integration for secure user payments and seamless transactions.
- Integrated AI interior design generation using Replicate based on user photos or sketches.

Technologies: Next.js, Tailwind CSS, TypeScript, PostgreSQL

Vineyard Academy Attendance System

Jan 2024 – Apr 2024

School attendance system with facial recognition and QR authentication.

- Built a full-stack attendance system with facial recognition and QR code login using FastAPI, Next.js, and PostgreSQL.
- Facial recognition accuracy reached 97%+ using InsightFace.
- Implemented role-based dashboards and real-time attendance tracking with biometric verification and secure JWT auth.
- Designed responsive UI with Tailwind CSS and Shadcn UI, and integrated InsightFace and OpenCV for face recognition.

Technologies: Python, Next.js, TypeScript, PostgreSQL

EDUCATION

Bachelor of Science in Computer Science

Sep 2021 – Jul 2025

STI College San Jose del Monte

- Cum Laude; Excellence in AI and IoT Solutions Award.
